

Reviews

“We have been working with Nextgen Software since we opened our store two years ago. The software is very user-friendly, updates and improvements are being made frequently. There is always a new ‘tool’ to discover to expedite our work tasks. We look forward to using the latest edition, it is very exciting!!”

“NextGen Resale and Liberty 4 ... saved our business! Literally! We went from a software nightmare to the exact experience we always hoped for! It is amazing and we could not imagine running our business SUCCESSFULLY with any other ...!!”

D&H GA

“Again, I cannot say thank you enough for helping us. You have been an amazing resource! ... I have recommended you whenever it comes up in the Facebook groups!”

KS AK

“I am very happy with the program, I like the structure of it and the ability to tweak things to go within the region your store is in. I also appreciate your willingness to create new categories and add other things that I ask for.” *Note; portal users are able to make category/pricing and brand changes on their own.*

GP Canada

“THANK YOU SO MUCH ... I am so pleased you are working so diligently to make this an easy transition. ...so thankful for your patient help and knowledge Blessings and success”

DK PA

“... actually trained 2 people (3 if you count me) in 3 weeks on how to price women’s clothing using your system. In the past, it would take 3 months or more to train someone. We are extremely happy with your pricing system and plan to purchase the children’s pricing system in the very near future”
